

SCRAM CONTINUOUS ALCOHOL MONITORING

The **SCRAM Continuous Alcohol Monitoring System™** is the world's most widely used and trusted 24/7 transdermal alcohol testing system. For high-risk, hardcore DUI and alcohol offenders.

SCRAM Continuous Alcohol Monitoring™
Continuous Alcohol Monitoring (CAM), or combined CAM+House Arrest, at the flip of switch. It's 24/7 monitoring for your high-risk/high-need alcohol clients.

The **SCRAM Systems Compliance Platform™**
The SCRAMNET™ secure web application is the **core** of the platform, which brings together everything from monitoring of our full product suite to our best-in-the-industry court support program, 24/7 customer support, mobile applications, offender compliance **analytics**, and beyond.

FEATURES

- Independently tested, court-validated
- 24/7 Customer Support
- Dynamic, flexible training
- AMS Data Analysis of every alert
- TAC readings correlate to BAC readings with a 0.02 confirmation threshold

CAM Bracelet

- Worn 24/7
- Automated noninvasive
- Samples perspiration every 30 minutes
- Industry-leading anti-tamper technology
- Optional House Arrest curfew monitoring in one bracelet

CAM Base Station

- Multiple ways to connect, including SCAM Wireless™
- Automatically uploads and transmits data at prescheduled time(s)
- Downloads software updates from SCRAMNET™ to the CAM Bracelet
- SCRAM Direct Connect™ allows agent downloads in the office, on-demand, direct to computer

SCRAMNET™

- Central, secure, web-based platform where all data is stored, analyzed, reported, and maintained
- User-friendly tool that aggregate, analyzes, and graphs test results
- Custom notification and reporting protocols
- Flags and graphically depicts alcohol alerts, obstructions, tampering, schedule noncompliance, battery and equipment information
- Integrates with all SCRAM Systems™ monitoring technologies

BENEFITS

- 99.3% compliance each and every day
- National network of service providers
- Conclusively distinguishes between alcohol consumption and environmental alcohol sources
- Single-source admissibility — no back-up tests required
- Flexible data management — expand, consolidate, view at-a-glance assessments, or summarize an entire caseload
- Continuous testing means no drinking around test schedules
